

U SAFE

A REVOLUTIONARY LIFESAVER

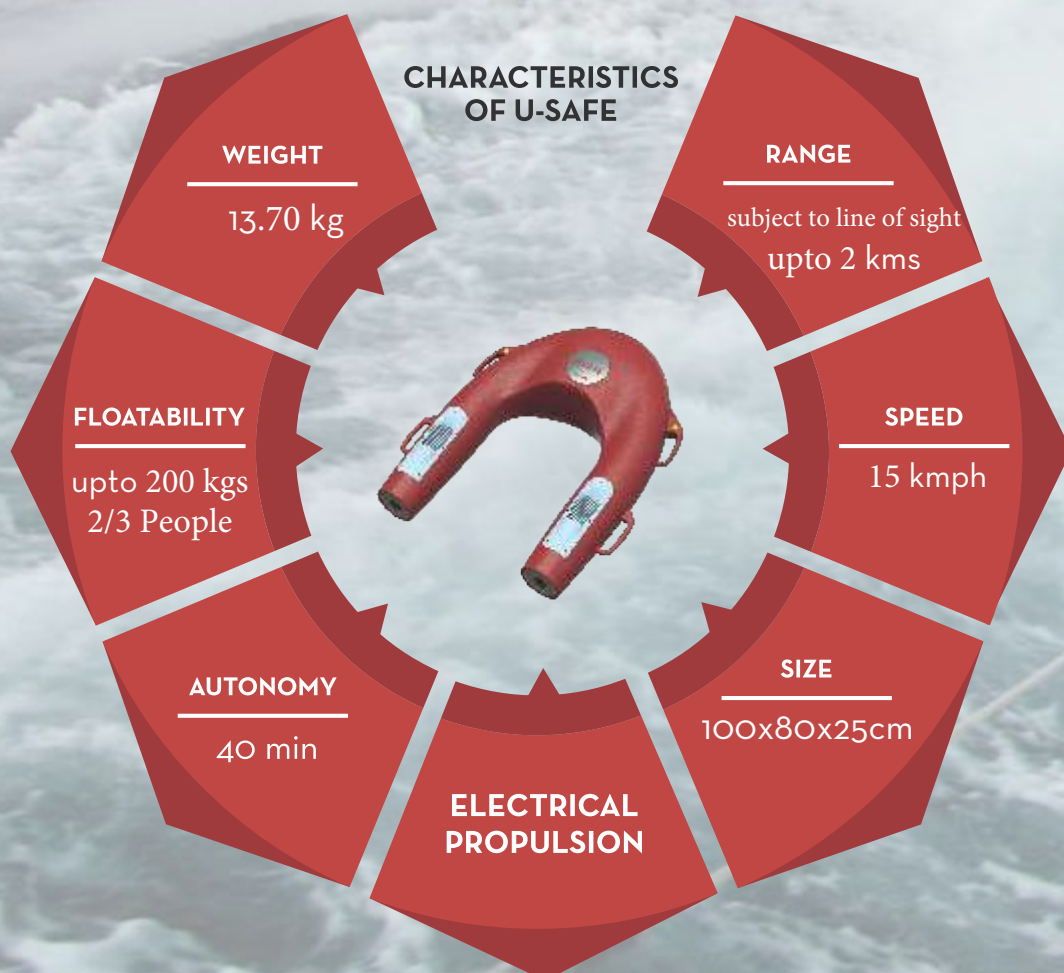

A BIG JUMP FOR HUMANITY

INNOVATION IS ONLY WORTHWHILE WHEN LIFE IS PUT ABOVE ALL ELSE

U-SAFE was born in Portugal with the ambition to save lives all over the world. With an international patent in 68 countries, it has been developed in accordance with all legal requirements and has been approved by the Portuguese Life Saving Institute.

To save lives in the ocean, without putting at risk the life of those who save, is a challenge as huge as the ocean itself. A challenge fulfilled with success. It is self-propelled, remote controlled and works in any position under the most adverse conditions. It also has its own navigation and guidance system. A float that was born to save lives in a simple, fast and safe way.

U SAFE

A REVOLUTIONARY LIFESAVER

The effectiveness of Aquatic rescue process, is directly related to the length of time taken to perform the rescue of a victim.

Main Characteristics:

Electrical Propulsion	
Weight	13.7 kg
Range	upto 2 kms subject to line of sight
Autonomy	40 min.
